

EXTEMPORANEOUS PUBLIC SPEAKING

2017-2021

IMPORTANT NOTE

Please thoroughly read the introduction section located on *FFA.org/cdeintro* for complete rules and procedures that are relevant to all National FFA Career/Leadership Development Events.

Purpose

The National FFA Extemporaneous Public Speaking Leadership
Development Event is designed to develop the ability of all FFA
members to express themselves on a given subject without having
prepared or rehearsed its content in advance. This gives FFA members
an opportunity to formulate their remarks for presentation in a very
limited amount of time. The event will be held in connection with
the national FFA convention and expo.

Event Rules

The National FFA Extemporaneous Public Speaking Leadership Development Event will be limited to one participant from each state association.

- It is highly recommended that participants wear FFA Official Dress for this event.
- Copies of the rules and score sheet will be supplied to participants in advance of the national event.
- Three to eight competent and impartial persons will be selected
 to judge the event. At least one judge should have an agricultural
 background. Each state with a speaker shall provide a judge for
 preliminary rounds of the national event. Any advisor who has a
 student competing in a speaking event may not serve as a judge
 for that respective speaking event.
- Any participant in possession of any electronic device, not provided by the event committee, in the preparation room is subject to disqualification.

Event Format

Event officials will randomly draw speaking order. The superintendent will announce each participant by name and in order of the drawing.

The selection of topics will be held 30 minutes before the event. The participants will draw three specific topics, selected at random from the pool of 18, relating to the industry of agriculture. After selecting the topic they desire to speak on, all three topics will be returned for the next drawing.

Eighteen topics will be prepared by the event superintendent and will include three each from the following categories:

- Agricultural literacy and advocacy
- Current agricultural issues
- · Advancing agriculture through agriculture science
- Current technology uses and applications in agriculture
- Agrimarketing and international agriculture
- Food and fiber systems

Participants will be admitted to the preparation room at 15 minute intervals and given exactly 30 minutes for topic selection and preparation.

The officials in charge of the event will screen reference material on the following basis:

- Must be limited to five items
- Printed material such as books or magazines
- Printed compilations of materials collected from Internet research
 - Participants may have 10 mins to conduct online research.
 Computers may be provided. Access to email, Dropbox or any prepared materials are prohibited.
- To be counted as one item, a notebook or folder of collected materials may contain no more than 100 single-sided pages or 50 pages double-sided numbered consecutively.
- References should be in original format.
- There can be no notes or speeches prepared by the participant or by another person for the purpose of use in this event. Cutting and pasting into a Microsoft Word document will be considered prepared notes.

Each speech should be the result of the participant's own effort using approved reference material which the participant may bring to the preparation room. No other assistance may be provided. Participants must use the uniform note cards provided. Any notes for speaking must be made during the 30 minute preparation period. A participant will be permitted to use notes while speaking, but deductions in scoring may be made for this practice if it detracts from the effectiveness of the presentation.

A list of all possible topics will be given to and reviewed by the judges prior to the beginning of the event.

Each speech should be no less than four and no more than six minutes in length. An additional five minutes will be allowed for the questioner to ask related questions. The room coordinator of the event will

introduce the participant by name and state. The participant may introduce his or her speech by title only. Participants will be penalized one point per second on each judge's score sheet for being over six minutes or under four minutes. Time commences when the speaker begins talking. Speakers may use a watch to keep a record of their time. Event officials or observers will give no time warnings.

The national event will be conducted in three rounds: preliminaries, semifinals and finals. No ranking will be given except for the final four speakers. Comment cards for all participants will be distributed at the awards function.

Timekeepers will record the time for each participant in delivering his or her speech, noting under time or over time, if any, for which deductions should be made.

At the time of the event, the judges will be seated in a designated section of the room in which the event is held. They will score each participant on the delivery of the production using the score sheet provided.

Each room in all rounds will have one person designated as a questioner. This individual will ask and score all questions for the event round. Questions will pertain directly to the speaker's subject. Questions containing two or more parts should be avoided. Judges will score each participant on the ability to answer. The full five minutes should be used.

When all participants have finished speaking, each judge will total the score on each participant. The timekeepers' record will be used in computing the final score for each participant. The judges' score sheets will then be submitted to event officials to determine final ratings of participants.

During preliminary and semifinal rounds, recording of presentations is permitted by one person from each participant's association, including advisor or family member, for that participant only.

Scoring

Participants will be ranked in numerical order on the basis of the final score to be determined by each judge without consultation.

The judges' ranking of each participant then will be added, and the winner will be the participant whose total ranking is the lowest.

Other placings will be determined in the same manner (low rank method of selection).

TIEBREAKERS

Ties will be broken based on the greatest number of low ranks. The participant's low ranks will be counted and the participant with the greatest number of low ranks will be declared the winner. If a tie still exists, then the event superintendent will rank the participant's response to questions. The participant with the greatest number of low ranks from the response to question will be declared the winner. If a tie still exists then the participant's raw scores will be totaled. The participant with the greatest total of raw points will be declared the winner.

Awards

Awards will be presented at the awards function.

Awards are presented to individuals based upon their rankings. Awards are sponsored by a cooperating industry sponsor(s) as a special project, and/or by the general fund of the National FFA Foundation.

FFA MISSION

FFA makes a positive difference in the lives of students by developing their potential for premier leadership, personal growth and career success through agricultural education.

THE AGRICULTURAL EDUCATION MISSION

Agricultural education prepares students for successful careers and a lifetime of informed choices in the global agriculture, food, fiber and natura resources systems.

The National FFA Organization is a resource and support organization that does not select, control, or supervise state association, local chapter or individual member activities. Educational materials are developed by FFA in cooperation with the U.S. Department of Education as a service to state and local agricultural education agencies.

The National FFA Organization affirms its belief in the value of all human beings and seeks diversity in its membership, leadership and staff as an equal opportunity employer.
