Back to School!!!

Advisor Highlight

Mr. Albisu

Teaches the agriculture mechanics side of the program. Some of the classes he offers are:

- Ag Mech I
- Ag Mech II
- Ag Mech III/IV
- Fabrication (Welding) I
- Fabrication (Welding) II
- Power/Structure Systems

Mr. Albisu has been teaching for 13 years, 9 at SCHS. His wife Mrs. Albisu is also an advisor. They have two children, Landon and Dekklan. When Mr. Albisu is not at school he loves hunting and being outside.

Mr. Smith

Teaches the agriculture science side of the program. Some of the classes he offers are:

- Ag Science I
- Ag Science II
- Ag Science III/IV
- Greenhouse/Ornamental Hort.
- Animal Science/Vet Med

Mr. Smith has been teaching for 3 years all at SCHS. Sarah Smith is often seen around with their baby, Wiley. When Mr. Smith is not at school he enjoys wood-working and hunting.

Greenhand Conference

Greenhand Conference is designed specifically for first year Ag students. At the conference students will learn what it takes to "construct" their plan for a successful career in FFA and life. They will focus on developing skills that they can use for the future after high school and how they can gain those skills through Ag.

FFA makes a positive difference in the lives of students by developing their potential for Premier Leadership, Personal Growth, and Career Success through Agriculture Education

Learning to Do

Doing to Learn

Earning to Live

Living to Serve
